### Reminder to Buy, Use and Encourage Others to Use the Stop Family Violence Stamp

On October 11, 2003, the U.S. Postal Service issued the *Stop Family Violence* semi-postal stamp. The stamp is scheduled to remain on sale through December 31, 2006, and is sold for 45 cents. The difference between the sales price and the underlying First-Class Mail rate constitutes a contribution to provide assistance to domestic violence programs through the U.S. Department of Health and Human Services (HHS). The *Stop Family Violence Stamp* currently provides a revenue stream to fund the support of enhanced services to children who have been exposed to family violence.

For those who are not able to get it at your local post office, it can be purchased online at <http://www.usps.gov>.
